Wyoming United States Highway #191

MILE	KM	ITEM	SUMMARY	MILE	KM
0.0	0.0	West Yellowstone WY Entrance - Idaho/Wyoming State Line	Yellowstone's, WY, National Parks volcanic history has been dramatically powerful - and its future could match the past. Yellowstone sits on a volcanic hot spot. Three times in its history Yellowstone has exploded with such power and fury that the world's weather changed. The scale of these eruptions was so immense that it is almost incomprehensible. CAMPING: There are seven campgrounds in Yellowstone National Park: Indian Creek, Lewis Lake, Mammoth, Norris, Pebble Creek, Slough Creek, and Tower Fall. Campgrounds NOTE: For highway travel north via Montana Highway #191 - See Road Map RV Highway guide - City of Big Timber to Montana / Wyoming State Line for driving directions and highway photos.	205.6	330.9

2.0	3.2	Entering Wyoming	Welcome to Wyoming.	203.6	327.6
2.7	4.3	Highway Turnout	A small turnout over looking river, large burn area from the fires of 1988. In April and May, Yellowstone, WY; received higher-than normal rainfall. But by June, the greater Yellowstone area was experiencing a severe drought. Forest fuels grew progressively drier, and the early summer thunderstorms produced lightning without rain. The summer of 1988 turned out to be the driest in the park's recorded history. By July 15, only 8,500 acres had burned in the entire greater Yellowstone area. Within a week, fires within the park alone encompassed more nearly 99,000 acres, and by the end of the month, dry fuels and high winds combined to make the larger fires nearly uncontrollable. On the worst single day, August 20, 1988, tremendous winds pushed fire across more than 150,000 acres. Throughout August and early September, some park roads and facilities were closed to the public.	202.9	326.5
3.7	6.0	Highway Turnout	Another one of the many turnouts. These turnouts occur every 1/4 mile or so.	201.9	324.9
4.5	7.2	River Side Drive - Yellowstone, WY National Park	You may follow this adjacent drive along the river for several miles.	201.1	323.6
5.3	8.5	Highway Turnout	Photo view from highway.	200.3	322.3
5.8	9.3	Riverside Road - Yellowstone, WY National Park	Follows just below main road following the river for several miles.	199.8	321.5
7.2	11.6	View from Highway	While driving south in Yellowstone National Park.	198.4	319.3
7.3	11.7	Madison River Picnic Area	Facilities: 7 picnic tables with restroom.	198.3	319.1
8.9	14.3	Madison Elk Herd, WY	This area is noted for the many Elk seen in the area.	196.7	316.5
9.3	15.0	Highway Turnout	Fishing access from this point.	196.3	315.9
10.1	16.3	Mt Haynes Overlook	Access from highway. Mount Haynes, WY is 8,219 feet (2,505.15 meters) above sea level.	195.5	314.6
12.0	19.3	Harlequin Lake, WY	Hiking Trails Entrance. A short, easy hike to a 10-acre secluded lake.	193.6	311.6
12.5	20.1	Madison Elk Herd	The elk is the most abundant of the big game animals of Yellowstone Park. Oftentimes reaching the size of a large horse, elk can be seen throughout Yellowstone year-around. The cows and calves oftentimes travel in large groups of a hundred or more during the summer months, while the males tend to travel by themselves or in very small groups, feeding on grasses and tree twigs. During the summer months, Elk can usually be seen in the Lamar Valley and in the northwest sector of the Park.	193.1	310.7
12.5	20.1	Madison Elk Herd	Yellowstone, WY National Park.	193.1	310.7
13.4	21.6	Madison Junction - Yellowstone, WY National Park	Madison Campgrounds: Facilities 250 camping sites, water, picnic tables, flush toilets, RV Dump Station. Elevation, 6800 ft.	192.2	309.3
19.3	31.1	Fountain Flat Drive.	Yellowstone, WY National Park	186.3	299.8

Road Map Travel Guide

19.8	31.9	Nez Perce Creek, WY	For thousands of years the valleys, prairies, mountains, and plateaus of the inland northwest have been home to the Nimiipuu or Nez Perce people. Today, the 38 sites of Nez Perce National Historical Park are scattered across the states of Idaho, Oregon, Washington and Montana and have been designated to commemorate the stories and history of the Nimiipuu and their interaction with explorers, fur traders, missionaries, soldiers, settlers, gold miners, and farmers who moved through or into the area. There are two Visitor Centers, one at Park Headquarters in Spalding, Idaho and the other at Big Hole National Battlefield, Montana. Both facilities are staffed year around by personnel who can answer your questions about the local area, the Nez Perce People and the War of 1877.	185.8	299.0
20.0	32.2	Highway Turnout	Access from highway.	185.6	298.7
20.1	32.3	Mary Mountain Turnout	Yellowstone, WY National Park.	185.5	298.5
21.8	35.1	Geyser Area & Walk - Yellowstone, WY National Park	Access from highway.	183.8	295.8
23.3	37.5	Whiskey Flats, WY - Access	Yellowstone, WY National Park.	182.3	293.4
25.2	40.6	Fairy Falls, WY	Yellowstone, WY National Park	180.4	290.3
25.7	41.4	Mallard Creek	Yellowstone, WY National Park	179.9	289.5
25.8	41.5	Biscuit Basin, WY	Yellowstone, WY National Park. Biscuit Basin has small, gem-like encrusted pools and geysers.	179.8	289.3
28.2	45.4	Daisy Trail, WY Hiking Access	Yellowstone National Park, encompassing 2.2 million acres, is one of America's premier wilderness areas. Most of the park is back country and managed as wilderness. Over 1,100 miles (1770 km) of trails are available for hiking. However, there are dangers inherent in wilderness: unpredictable wildlife, changing weather conditions, remote thermal areas, cold water lakes, turbulent streams, and rugged mountains with loose, 'rotten' rock. Visiting wilderness means experiencing the land on its terms. If you choose to explore and enjoy the natural wonders of Yellowstone, there is no guarantee of your safety. Be prepared for any situation. Carefully read all backcountry guidelines and regulations.	177.4	285.5
29.1	46.8	Black Sand Basin, WY	Yellowstone, WY National Park. Black Sand Basin contains a collection of small jewel-like geysers, and colorful hot springs.	176.5	284.0
29.9	48.1	Old Faithful Turnoff - Yellowstone, WY National Park	Elev 7341' Visitors standing between Old Faithful and the Old Faithful Inn watch the geyser erupt. Built during the winter of 1903-04, the Old Faithful Inn was designed by Robert C. Reamer, who wanted the asymmetry of the building to reflect the chaos of nature. The lobby of the hotel features a 65-foot ceiling. Wings were added to the hotel in 1915 and 1927, and today there are 327 rooms available to guests in this National Historic Landmark.	175.7	282.7
30.8	49.6	Craig Pass and Isa Lake, WY	Both names are used to describe the same location seven miles south of Old Faithful on the Grand Loop Road. At 8,262 feet along the Continental Divide, Isa Lake is a uniquely confusing feature. During spring runoff, it drains into both the Atlantic and Pacific Oceans at the same time! (And backwards, too!) The west side of the lake flows into the Firehole drainage and, eventually, the Atlantic throughout the year. The east side, during spring, flows toward the Snake River drainage and the Pacific.	174.8	281.3
32.7	52.6	Keppler Cascades, WY	Keppler Cascades access Hike in to Lone Star geyser.	172.9	278.2
35.6	57.3	Spring Lake, WY	Spring Lake picnic area. No trucks, RV's or buses.	170.0	273.6
36.6	58.9	Divide Trail, WY	Access from highway.	169.0	272.0
36.6	58.9	Divide Trail, WY	Divide Trail hiking access.	169.0	272.0
37.6	60.5	Highway Turnout	Old Wooden Bridge with creek.	168.0	270.4
37.8	60.8	Continental Divide	Continental Divide Elev:8262	167.8	270.0
38.9	62.6	Delacey Creek, WY Turnout	Yellowstone, WY National Park.	166.7	268.3
39.0	62.8	Delacey Creek Picnic Area.	Yellowstone, WY National Park Facilities: 9 Picnic tables, rest room.	166.6	268.1
39.4	63.4	Shoshone Lake Turnout, WY	Yellowstone, WY National Park.	166.2	267.5
43.5	70.0	Continental Divide	Elev 8391	162.1	260.9
46.9	75.5	Shoshone Lake, WY	Yellowstone, WY National Park.	158.7	255.4

Road Map Travel Guide

46.9	75.5	Yellowstone Lake - Yellowstone, WY National Park.	Sitting in the bowl of a 650,000 year old volcanic caldera, Yellowstone Lake is a wild and mysterious phenomena. The lake covers 136 square miles, one of the largest freshwater lakes at such a high altitude in the world. It has 110 miles of shoreline and depths up to 400 feet. Evidence shows that this massive lake once drained south into the Snake River. It is populated with cutthroat trout, a species found west of the continental divide, and connected to rivers that flow into the Pacific. At some point, after Yellowstone Lake was populated with cutthroat, the lake 'tipped' with the north bank becoming lower than the south bank, spilling it into what became the Yellowstone River.	158.7	255.4
49.4	79.5	Grant Village, Yellowstone, WY National Park.	Elev 7770 The Grant Visitor Center is located on the shore of the West Thumb of Yellowstone Lake one mile off of the main park road at Grant Village Junction. The visitor center and development are named for President Ulysses S. Grant, eighteenth president of the United States, who signed the bill creating Yellowstone National Park in 1872. The facility was constructed during the 1970s and, along with the entire Grant development, was and is a controversial Yellowstone development due to its location in prime grizzly bear habitat (the area is the location of several major cutthroat trout spawning streams).	156.2	251.4
51.6	83.0	Riddle Lake - Yellowstone, WY National Park.	Continental Divide Elev 7988	154.0	247.8
54.6	87.9	Levis Channel Dogs Head Hiking Access	Yellowstone, WY National Park.	151.0	243.0
54.8	88.2	Heart Lake Yellowstone, WY National Park.	Camping	150.8	242.7
55.4	89.2	Lewis Lake - Yellowstone, WY National Park.	The third largest lake in Yellowstone National Park, this lake, one can fish for lake and brook trout. There is small boat launch area.	150.2	241.7
57.7	92.9	Lewis Lake Campground Yellowstone, WY National Park.	Camping facilities: 85 camping sites, vault toilets. Elevation 7800 ft.	147.9	238.0
59.0	94.9	Lewis Falls - Yellowstone, WY National Park.	A short distance south of Lewis Lake, the impressive 29-foot falls plunges toward the highway. Do take time to stop and observe this waterfall and then explore the way the Lewis River cuts its impressive canyon to the south. We often spot ouzels and other water loving birds in the stream below the falls. We especially like Lewis Falls in the winter, when mounds of soft snow are often perched on the trees alongside the waterfall.	146.6	235.9
60.7	97.7	Pitch Down, WY Hiking Trail Access	Yellowstone, WY National Park.	144.9	233.2
62.5	100.6	Fire Power	This area was naturally re-seeded in 1988	143.1	230.3

91.9	147.9	View from highway	While driving south in the Bridger-Teton National Forest, WY.	113.7	183.0
92.1	148.2	Jenny Lake, WY Turnoff	the one-way road reaches Jenny Lake. For understandable reasons, this place is highly popular; the road in summer is crowded with vehicles. Even so, if you desire solitude amid the grandeur, you can generally find it. Leave your car in a parking area and walk down to the shore. Instantly you are isolated from the world of automobiles. If you have more time, catch the boat that usually leaves three times an hour from the south end of the lake. Near the parking area you will find the Jenny Lake Visitor Center, rest rooms, ranger station, a store, and a campground for tents only.	113.5	182.7
93.4	150.3	Highway Turnout	While driving south in the Bridger-Teton National Forest, WY.	112.2	180.6

105.6	169.9	Snake River Overlook, WY	The Snake originates in Yellowstone, flows through the John D. Rockefeller Jr. Memorial Parkway, and into Jackson Lake at the north edge of Grand Teton National Park. When the Snake passes over the dam out of Jackson Lake, it wanders east toward Moran Junction, creating Oxbow Bend along the way, and then becomes a braided stream that runs south-southwest until it exits the park just south of the Moose Visitor Center. South of Jackson, the Snake speeds up, merges with the Hoback River, and becomes a whitewater stream as it heads westward toward Idaho. Waters from the Snake eventually join the Columbia and flow into the Pacific Ocean at Astoria, Oregon.	100.0	160.9
